Configuration of openSUSE for Notation Software Products with Wine

1. Check Repository of Wine

Wine is part of the standard distribution of openSUSE. Please make sure that the repository is accurately configured according to https://en.opensuse.org/Wine#Repositories Open Yast2 and check

<u> </u>		YaST-Kontrollzentrum @ linux-k0a7.site	\otimes \otimes \otimes

2. Configure Wine

Select Windows 7 or higher. We recommend to use Windows 10.

3. Installation of notation composer 3

Download Notation Software with your most favourite browser like Firefox. Typically the browser saves the downloaded file in the Downloads folder of the user. Simply double-click to the .msi file and the installation starts.

IMPORTANT – when installing Composer / Musician

Due to a bug in Wine please do **NOT** change the default program installation folder.

	notation composer 3	•
Select Installation Fold	er	
	notation softwar	e
The installer will install notation co	nposer 3 to the following folder.	
To install in this folder, click "Next"	". To install to a different folder, enter it below or click "Browse".	
Eolder: C:\Program Files (x86)\Notation Please do NOT chang	Browse ge this installation path	
	Cancel < Back Next >	

We have reported this bug to the Wine community and will remove this installation advice when the Wine correction will be available.

If during installation a Repair/Remove window may pop up e.g. for de-installing a former version or a trial version, please **always use Remove**, **never** use Repair

	notation composer 3	\odot
Welcome to the notatior	n composer 3 Setup Wizard	
	notation	oftware
Select whether you want to repair or	remove notation composer 3.	
C Repair notation composer 3	-	
Remove notation composer 3		
Always use Remove	e, never Repair	
	Cancel K Back	<u>F</u> inish

4. How to start Composer, Musician or Player after installation

During installation a desktop icon is created. By double-clicking to this icon the app will start.

5. Save an external backup of the software

During installation of the software an automatic backup is created into to a zip folder. This zip folder is located in the Downloads folder resp. the folder where the installation was started. In addition you can find the backup in the product's installation folder (see Appendix 1).

Please save this zip backup on an external device in case a re-installation needs to be made.

For a re-installation please start with step 3. of this installation guide.

Appendix:

Useful information about the use of Notation Software on openSUSE

A1. Uninstalling of Notation Software

The uninstallation on Wine goes like this:

Please use the Wine Control Panel to de-install as shown below.
